## Tobacco Buyers Test Market; Get Resistance

Tobacco buyers started off the 1967 season this week with offers of 30 cents a pound for wrappers and 20 cents for fillers, or 25 cents through

First reports reached this reporter Tuesday At that time one farmer reported turning down a 30-20 cent offer in hopes of getting 35 cents "If last year's crop was worth 30, this year it's worth 35" he said

A buyer not in the field said Wednesday he thought this was a test of the market to feel the farmers out He said there was a fair demand for the crop "The growing season was good and the curing season was, if anything, even better," he said

At that time it was not yet evident if this was a false start or if buying would continue However, he felt if farmers would continue to sell the buyers would continue to buy Buy-

## Poultrymen Hear Director From Tel Aviv, Israel, At Meeting

Special feature of the annual Lancaster County Poultry Banquet, Thursday night at Hostetter's in Mount Joy was a film, 'The Six-Day War", and guest Speaker Sidney D Troy managing director Poultry Breeders International Tel Aviv, Israel

Troy told the 250 members and guests present that the people of Israel were not fighting for their country or for a moral victory during the now famous "six-day war They were fighting for their wives or daughters or sons "They made it personal," he said

The international poultry director said Israel is now being used as a model "I have seen foreign students in Israel learning the concept of pulling together resources out of nothing This is what the peoples of the world are looking for"

Troy said that now when you fly over Israel you can see where irrigation has and is pushing back the desert. Their dairy herds are well known and respected around the world

Israel has learned, he said, that a small country can't compete in poultry meat and egg production but they can compete in brain power

Troy concluded with the thought that in history when the people of Israel were united in land and language they gave the nations of the world

## Hand Sees Milk Price Outlook Steady For Immediate Future

The class I utilization and the Class I price are still the two important factors in arriving at the blend price for milk, according to Dr Paul E Hand, Economist for Inter-State Milk Producers Co-operative

Hand, speaking to the 180 dairymen and wives at the annual meeting for District Six of Inter-State held Tuesday evening, at the Gap Fire Hall, said that the utilization of Class I milk has not decreased in the Order No 4 area since it went to a market-wide pool in June He said the average blend price has been about $6 00 "The problem," he said, "is to assume the responsibility for supplying markets and keeping the market use of Class I at about 80 percent"

As for the price in the immediate future, Hand said it should stay about the same

The imitation or "filled" milk products were discussed by Hand He said this product is reported to be going on sale in New Jersey in November It is already being marketed in California and Arizona

This "milk" is made of skim milk powder, coconut oil and emulsifier When it is cold, it is reported to taste as good as real milk

"In Arizona the retail price for this product varies from 37 cents to 47 cents per half gallon while whole milk per half gallon retails for 43 to 53 cents," Hand said

(Continued on Page 6)

## Holstein Men Set Yearly Dinner Meeting

The Lancaster County Holstein Assn will hold its annual banquet and business meeting Nov 10, at Hostetter's, Mount Joy, according to J Mowery Frey Jr, chairman of the banquet committee Time for the dinner is 6 45 p m

# Weekly Poultry Report

## Eastern Pennsylvania And New Jersey Weekly Review

Prices unchanged to ½c lower on light type hens, unchanged on heavy type. Demand fair but unaggressive on light type with offerings generally in excess of number that processors can handle. Waiting periods running up to 2 weeks to move hens from farms common. Interest for heavy type fair to good. Offerings adequate to occasionally barely adequate.

**Turkeys**

Demand generally light and unaggressive. Occasional interest noted to cover forthcoming ice-packed Thanksgiving needs; however, trading too limited to quote prices. Processing continues active on contractual or previously committed birds.

## Fogelsville

**October 24, 1967**
**(Prices paid dock weights, cents per lb., except where noted.)**

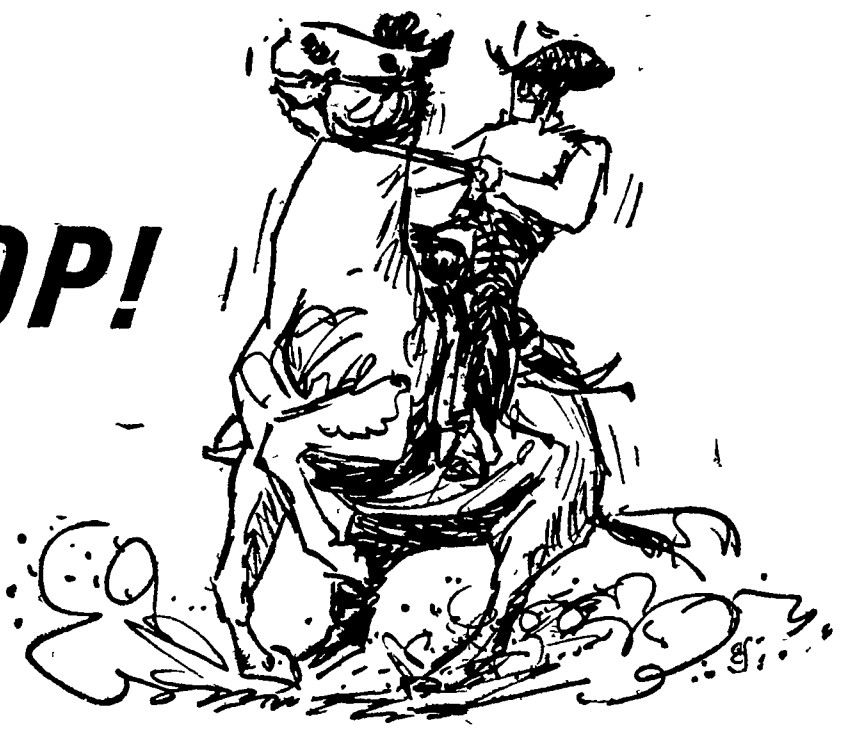
**STOP!**



**You're taking a chance!**

If you've been in the habit of "booking" your feed before new-crop information is available, you have been taking a chance with your feedlot results.

You make money by producing the lowest cost pound of beef, not by saving pennies on a "cheaper," less efficient supplement or ration.

A good booking means nothing unless the feed itself is of high quality. So why not wait until you have talked with us about Purina's feeding programs. They feature Purina Cattle Starters that will put cattle on full feed the very first day. And they contain supplements "built-to-fit" your own particular grain and roughages. Or complete Cattle Chows that can save you work and may cut feeding costs.

Ask us also how you can protect your cost with Purina's Firm Price Plan.

# From Where We Stand . . .

## Farm Boys Make Fine Impression

The 10,000 FFA boys that convened in Kansas City recently, prompted this letter to the editor in the Kansas City Star that was brought back to us by Charles Ackley, Vo-Ag teacher at Ephrata. It read:

"Do you want to restore your faith in the teenagers of this country? If so, just go to downtown Kansas City while the FFA boys are in town and take particular note of these kids. Most of them are dressed in the familiar blue jacket. None of them needs a haircut. I did not see a single FFA boy with long, shaggy hair hanging over his eyes. A large majority were not dressed in the height of fashion, but everyone was neat, and had the eager look of a lad learning something, and doing something worthwhile. It's a pleasure to behold God bless 'em."

George Freund,
1015 Far View,
Independence

Need we say more?

## Farmers Have Final Responsibility

As more and more people walk the earth, more production must be wrung from each acre of available land if the necessities of life, most notably food, are to be available in sufficient quantities to support life. Exhaustive and repeated Food and Drug Administration studies have demonstrated that food purity is not adversely affected by proper use of pesticide chemicals essential for the growth and protection of food crops. This is good news indeed, because there is no question but that the use of these chemicals will have to be much broader and more intensive as the pressure on the land to produce increases.

In this development, the individual farmer will carry an increasing responsibility to see to it that he uses pesticide chemicals carefully and according to the detailed directions on the label. It is important to remember that a chemical company probably spent two to three million dollars to discover, develop and evaluate a product for safe and proper use in crop production. Chemical companies, industry associations, government agencies and agricultural extension services emphasize the importance of reading and following directions.

In the final analysis, however, all this effort accomplishes nothing unless the individual using the chemical takes the responsibility of applying it properly. The vast majority do, and it is well that this is so. Misuse and abuse of farm chemicals would result in restriction or prohibition of their use. Farmers would be deprived of one of the most important tools of agricultural production created in the past several hundred years and mankind would have a much slimmer hope of fending off the advance of starvation that now threatens so many millions of the world's people.

At least that's the way it looks from where we stand.

## Narrowing The Food Gap

The food production gap between the "have" and "have not" countries has widened steadily in recent years. This widening is due not so much to differences in overall rates of increase in food production between these two major economic groupings as to dramatic differences in rates of population growth.

Despite these many adverse trends there are nevertheless some recent encouraging developments which enhance the prospect of accelerating food production in the "have not" countries within the next few years. A more rapid expansion of food production will help buy time in which to bring the rate of population growth to a manageable level. Indeed, one of the leading challenges before us and the world today is to see how quickly the food gap can be narrowed.

At least that's the way it looks from where we stand.

## Across The Fence Row

Even if your credit rating is zero, you can still borrow trouble.

By the time you have money to burn, the pilot light has gone out.

Flattery has been defined as the ability to describe others as they see themselves.

The richest man in the world doesn't have more than 24 hours to enjoy every day.

Have you heard about the college graduate who, showing his diploma to his father, said, "Here's your receipt, pop!" — Eagle Star, Marinette, Wis.

A man can cling to an idea so long that it makes a prisoner of him.

Don't fasten your ship to one single anchor, or your life to one single expectation.

Then there is the story about the farmer who dialed his zip code into his barn telephone. And guess what? — His mailbox rang!

## Weather Forecast

The five-day forecast for the period from Saturday through next Wednesday calls for temperatures to average near normal with daytime highs in the 50's in the north portion and in the 60's south. The overnight lows will range in the mid 30's to mid 40's.

Milder at the beginning and turning cooler later in the period. The normal temperature for this time of year is high 61 and low 40.

Rain may total one-half inch occurring Saturday and again at the end of the period.

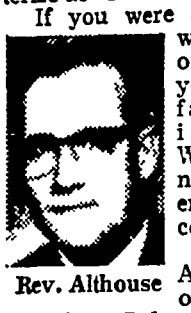
## WHAT GOD HATES

**Lesson for October 29, 1967**

Background Scripture: Amos 4 4 5 5 21 24; 8 through 9.
Devotional Reading: Psalms 119 33 40.

It seems strange to think of God hating anything or anyone. What or who could possibly provoke so extreme a response from the God whom Christians characterize as "our Father"?

If you were asked to guess what God hates, of what would you think? Profanity, impiety, irreverence? Would you nominate the backslider, the atheist, the communist?



Rev. Althouse

According to Amos, it is none of these:

**"I hate, I despise your feasts, and I take no delight in your solemn assemblies"** (Amos 5: 21 RSV).

What a shocking statement! God hates the time-honored worship practices of his people! There can be no mistaking this:

**"Even though you offer me your burnt offerings and cereal offerings, I will not accept them, and the peace offerings of your fated beasts I will not look upon. Take away from me the noise of your songs; to the melody of your harps I will not listen"** (Amos 5:22-23 RSV)

### Noise Of Our Hymns

Can you imagine how stunned were the people of Israel when Amos delivered this prophecy? The feasts, the solemn assemblies, the various offerings, the joyous songs, the melody of harps, all these they had assumed were pleasing to the Lord, the right way to worship. It is as if today God were to say to us: "I hate your holy seasons, and I take no delight in your Sunday services. Even though you offer crisp dollar bills and make three-year pledges, I will not accept them. Take away the noise of your hymns, to the melody of your pipe organs and robed choirs I will not listen!"

**"But God,"** we cry, **"that's the way we've learned to worship. If that isn't what you want, what do you want?"** Surely the people of Israel must have responded in somewhat the same way. What did God want?

Amos had a ready answer: **"But let justice roll down like waters, and righteousness like an everflowing stream"** (Amos 5:24 RSV). There we are: what God wants from us above all else is justice and righteousness.

### For Those Less Fortunate

But what do you mean by "justice and righteousness"? Well, says Amos, for example: stop trampling the needy, stop oppressing the poor, stop making money your chief goal in life, stop cheating in your business and work, stop exploiting the weak, stop fattening yourself at the expense of your fellowmen (Amos 8:4-7). In other words, seek justice and practice righteousness for those less fortunate than yourself.

Amos also mentions those merchants who are so eager to resume their trade, that they can hardly wait for the end of the holy days (for commerce was forbidden then). Today they would no longer have to wait. Not only are many stores open on Sundays and holidays, but we have also found ways of exploiting holy seasons for personal profit. The world could not afford to lose the Christian Church: Christmas and Easter are much too profitable.

### Forgotten By Monday

Let us make no mistake, however; God does not hate our worship per se. What he hates and despises is worship which is insincere and hypocritical, which has little or nothing to do with how we respond to the needs of our fellow men. As the jingle has it:

**They're praising God on Sunday,**
**But they'll be all right on Monday;**
**It's just a little habit they've acquired.**

God hates worship that is little more than a "habit" that is forgotten by Monday. If our worship is to be acceptable, then, as someone has put it: "The channel of ritual must be filled with the waters of justice and righteousness."

## NOW IS THE TIME . . .

**By Max Smith**

**Lancaster County Agent**

### To Store Pesticides Safely

The spraying season is nearly over for many gardeners and producers, the proper disposal of containers and the safe storage of surplus chemicals is very important. Materials should be kept in the original container if at all possible, this will help identify the chemical and furnish spray instructions. Materials should be stored safely away from children, pets, livestock, and seeds to be used next year.

### To Control Winter Weeds

Hay fields may be heavily infested with weeds this fall and winter weather conditions have been very favorable for seed germination. There are several herbicides that may be used with success such as Dinitros, Chloro IPC and Karmex, growers are urged to become acquainted with the use of these materials and apply accordingly. Weeds are more easily killed when small rather than toward maturity.

### To Control Parasites

All livestock producers must pay attention to efficient production; any factor that lowers the health and vitality of the animal will reduce production. Both internal and external parasites sap the strength from the animals and reduces performance. Stomach worms are far more common than many feeders and dairymen realize; local veterinarians can diagnose the condition and make corrective recommendations. Don't feed parasites.

## ● Farm Women

(Continued from Page 11)

mas program on Nov 15 at the Dutch Town and Country Inn. Six members will fold Christmas Seals Thursday at the Health and Welfare Center.

Secret sisters were revealed and new names were selected for the coming year The Venture Club asked for volunteers to aid with the preparation of toys for Christmas for needy children

### SOCIETY 12

Society of Farm Women 12 held their annual Family Night banquet at the West Willow Fire Hall Saturday evening, with 72 member and guests attending

Willis Glick and Mrs John Elsen had charge of devotions. An Armchair Trip to Canada and Utah was given by Glenn Shenk and Harold Wissler.

At a short business meeting following the dinner, it was voted to give a contribution to the Retarded Children and to the Needle Work Guild

The next meeting will be Nov 18 at the home of Mrs. John Kendig, Conestoga R1.

### SOCIETY 18

Society of Farm Women 18 held a meeting featuring a banquet for husbands of members at Meadow Hills Dining House on Saturday evening

Mrs Paul Whitman County president, was guest Miss Jean Forry presented piano selections

Charles Schlegelmilch showed movies of his big game hunting in Alaska, India and Utah

A table featuring items made during the year will be displayed at the County Extension Christmas meeting on Nov 15 at Town & Country Restaurant.

New officers of the Society are Mrs Edward Wissler, president, Mrs Lester Kreider, vice president; Mrs Wayne Brubaker, recording secretary; Mrs. Charles Warfel II, secretary; Mrs. Richard Hershey, treasurer

Tuesday, Nov. 21 at 7 30 p m, the next meeting will be at the home of Mrs John N. Hess, Columbia R2 A Lancaster flower shop will show flower arrangements.

### SOCIETY 3

Society of Farm Women 3 met in the Educational Building of the Salem Lutheran Church, Lincoln Members of Society 4 were entertained with a noon luncheon Guests were presented with corsages.

Mrs William Eberly presided at the business meeting Devotions were led by Mrs Sallie West.

Society 3 has completed 333 cancer dressings during the year The Nov 1 program committee will fete the silver age members of the group

Election of officers was held. Mrs Willie Stober is the new president Other officers are Mrs Robert Gregory, vice president, Mrs Lloyd Martin, secretary; Mrs Earl Smoker, assistant secretary, Mrs Erla Gehman, treasurer

The program featured an illustrated lecture trip through Russia by Mrs Elizabeth Shaub, English teacher in Ephrata High School

The November meeting will be at the home of Mrs Irvin Burkholder

### EXERCISE COWS

Cows need exercise even in winter, says Harvey E Shaffer, extension dairy specialist at Penn State University. Dairymen should include an exercise lot convenient to the barn when making plans to take care of their cows during winter.

PARTICIPANTS IN THE INTERSTATE MILK PRODUCERS COOPERATIVE MEETING. (left to right) Dr Paul E Hand, Economist; J Arthur Rohrer, Chairman; Miss Anna Mae Donough, Dairy Princess and Harry Kaufman, Secretary of the Philadelphia Dairy Council. L. F. Photo

## ● Hand

(Continued from Page 1)

Other speakers included Harry Kaufman secretary of the Philadelphia Dairy Council. Associate County Agent Victor Plastow, Dairy Princess Anna Mae Donough and Melvin M Brendle, who gave a director's report J Arthur Rohrer served as chairman for the event

Brendle cited two member-producers, Melvin J Martin, Gap R1, and Warren Landis, Hartman Station Road, for 25 years membership in Inter-State, which is marking its 50th anniversary this year

In the balloting for directors in each local, these men were elected: **Christiana Local,** I Eby Hostetter, president, Nathan E. Stoltzfus, vice president; Marvin E. Hershey, secretary-treasurer, Milton B Landis and Harold M. Umble, delegates; John C. Metzler and Glenn G. Miller, alternate delegates and Jacob L. Kreider, market committee.

**New Holland Local,** Monroe W Good, president; John B. Ranck, Jr., vice president; Robert Book, secretary-treasurer; Lester G. Good and Chester H. Weaver, Jr., delegates; Ferree R. Esbenshade, Jr. and John S. Wenger, alternate delegates and Lester H Good, market committee

**Paradise Local,** Charles H Rohrer, president; John Hershey, vice president; Ivan S. Bowman Jr, secretary-treasurer; Roy Book and Melvin R. Stoltzfus, delegates; Melvin G. Groff and J. Kenneth Hershey, alternate delegates.

**Witmer Local,** Lester G. Landis, president; C. E. Heller, vice president; Mervin W. Landis, secretary-treasurer; John J. Landis, delegate; C. Richard Landis, alternate delegate and Daniel H Clymer, market committee.

*Choose the Right protein level for your cows...*

| USE | WITH |
|---|---|
| 14% | For good legume hay, good pasture |
| 16% | Fair legume hay corn silage with excellent legume hay |
| 18% | Fair grass hay poor legume hay, corn silage with good legume hay |
| 20% | Poor mixed hay, corn silage with poor hay |

*Without changing feeds*

**WAYNE 32% Dairy Krums**

An all-vegetable protein supplement for premium nutrition. Contains added vitamin A & D sources. Also available with extra 10,000 units of vitamin A per lb.

**WAYNE 42% Dairy**

Combines the economy of urea with vegetable protein. Also available with extra vitamin A.

You can change your protein level in your dairy grain ration by simply varying the amount of Wayne Dairy Supplement you add to it. Thus when a change in roughage dictates a change in protein level, your grain ration has only a moderate change in taste and formula. No need to make Bossy change to an entirely new grain ration at the same time she changes roughage! Wayne Dairy Supplements are economical too—let you utilize home grains to make a top-quality dairy ration.

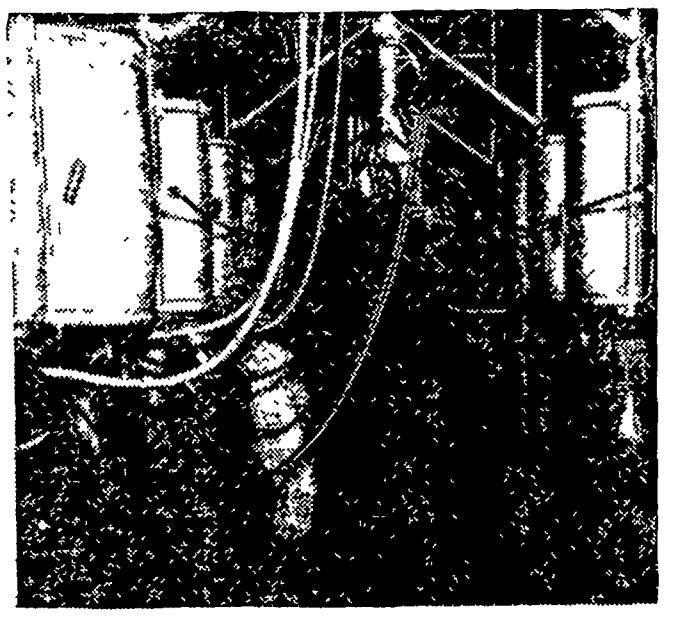
# Perfection Can Put A Pipeline In Any Barn

## WHY BUY A PIPELINE?

FOR AN AVERAGE 40 COW HERD YOU CAN . . .

1. Save walking 100 miles a year.
2. Save carrying 292 tons of milk a year.
3. Save 200 hours per year on an average herd.
4. Produce higher quality milk.
5. Increase your milk production.



## Why Buy A Perfection Pipeline?

1. Engineered for the modern dairy farm of today as well as the dairy farm of tomorrow. We recommend a 2" system so you can increase your herd size and not need a new pipeline in a few years.
2. The only milkhouse control unit that is assembled at our modern new factory on a stainless steel panel. Pretested for trouble free operation, self-draining with patented washing features.
3. Built and guaranteed by Sta-Rite Industries, Inc., of Delavan, Wisconsin, a recognized leader in home water systems and agricultural components.

THE NEW HOLLAND SALES STABLES ANNUAL COW SHOW AND SALE. The ten top cows in the annual Holstein show and sale at the New Holland Sales Stables had a grand average of $1,186 according to Abe Diffenbach, Sales Manager.

The grand champion shown by Marvin Eshleman, Strasburg, was sold in the afternoon sale to Charles C. Myers, 1500 Rohrerstown Rd., for $1,675.

The second place animal shown by Norman Kolb, 355 Pitney Rd. sold to Paul Zimmerman, Ephrata. The selling price was $1,200.

Melvin Kolb, 621 Willow Rd. and Marvin Eshleman sold the third place cow for $1,300 to Donald Hostetter.

The top 100-head averaged 627 dollars. L. F. Photo

## ● Have You Heard?

(Continued from Page 11)

should list the fiber content along with directions for care Be sure to note whether the fabric can be laundered or must be drycleaned.

Check whether allowance must be made for shrinkage.

**Tips on Making Dried Flower Arrangements**

When making dried flower arrangements, keep containers natural. They may be a slab of wood, a brick, or an earthenware container. Try to express the feeling of autumn, the casualness of a "design of nature" Or you can use fall vegetables arranged in a market basket. Try for the feeling of an abundant market place.

Some materials you can use for fall arrangements include

—Grasses – fountain, pampas, timothy.

—Grains – barley, field corn, oats, rye, wheat, sorghum.

—Berries – barberry, bayberry, black alder, bittersweet.

—Vegetables – artichokes, red onions, hot peppers, gourds, purple-top turnips, purple cabbage.

**When You Buy Ham...**

To get the most for your money when buying a ham, buy it either whole or by the half. That way you'll get those meaty center slices. A "ham half" must be exactly that. A piece of ham labeled butt or shank end or portion means the butcher has removed the center slices — and probably sold them separately for more money.

## Lanchester Pony Club

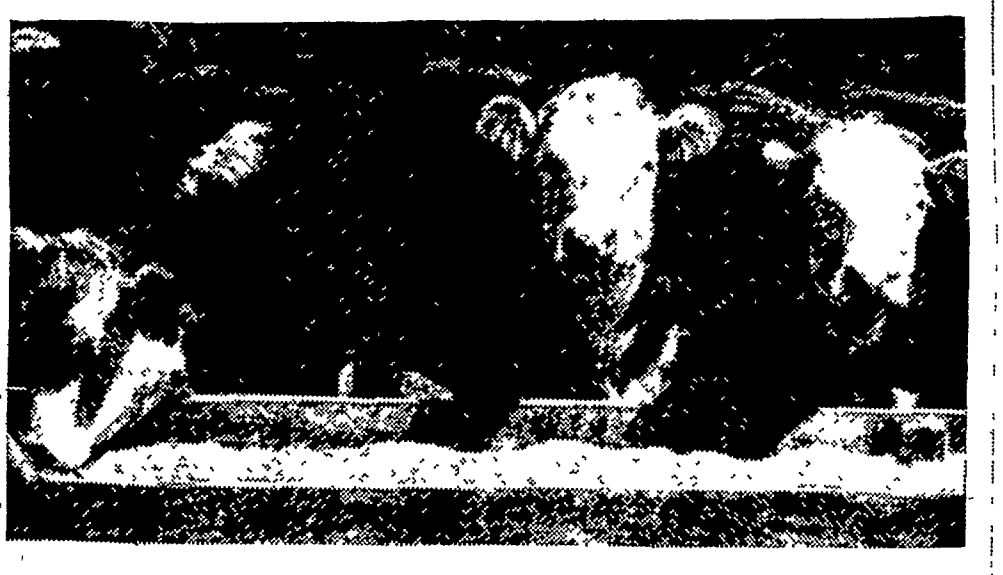
At a meeting of the executive committee of the Lanchester Pony club recently, it was decided that a one day Rally be held at headquarters of the club on the John M Gibson property, Drumore R1, today, Saturday, October 28, according to John E Waters, president, Executive Committee.

An invitation is being extended to Brandywine Pony Club and to the Berks Pony Club to participate in this rally which will consist of three main phases of horsemastership, namely, Cross-country riding, Dressage and Stadium Jumping Individual riders will be scored on their performance in all three phases.

The Club's newly acquired headquarters at the Gibson farm have been improved by the club members by erecting a 150'x300' training ring, the building of a 1½-mile, 15-jump cross-country course and the erection of two 66'x132' permanent dressage rings The club invites interested area residents to see the members perform at their headquarters the day of the rally. Gibson's farm is located south of the Susquehannock State Park on the road to Fishing Creek, follow the signs.

# Steer Feeders ...

## PROBLEMS ASSOCIATED WITH CATTLE GOING ON FEED



**Digestive disorders and a slight transient depression in appetite in newly-arrived cattle in the feedlot have been problems for a number of years. There are numerous causes:**

1. The sudden change in type of feed, for example, from grass and milk to grain, silage and/or hay and a protein supplement.
2. Too rapid pushing of grain concentrates.
3. Too much protein
4. Not enough roughage.
5. Too much high quality roughage.
6. Unpalatable feed.
7. Too much green chopped legume or grass silage.
8. Feeding soft or immature corn. If not moldy, soft corn is satisfactory, but animals must be accustomed to it gradually (Morrison).
9. Too much green chopped corn causing green corn poisoning.
10. Too much silage fed to lighter weight calves. Calves do not have the digestive capacity to obtain their total digestible nutrients from a full feed of silage alone.
11. Digestive disorders caused by infections.
12. In addition, in connection with supplements containing an antibiotic, there is an adjustment of the rumen microflora to the antibiotic. This may cause a slight depression in rumen function and reduce appetite for 24 to 36 hours after the initial feeding. Softer feces also may be noticed. This effect is transient and after 36 to 48 hours the appetite should be restored to normal.

# Beware Of Prussic Acid, Plastow Says

If you have any sudan sorghum hybrid, a word of caution is necessary at this time of year according to Victor Plastow, Associate County Agent. Because, if it is frosted it becomes very poisonous due to the high concentration of prussic acid within the stalk.

"The safest place to put this forage after a killing frost would be in the silo," Plastow said. "After a few weeks fermentation, this roughage will be perfectly safe to feed."

"If by unfortunate experience an animal should get a few mouthfuls and become critically affected from this poisonous acid, call the veterinarian immediately and he may be able to save the animal, if he arrives promptly," he said.

Plastow also cautioned all dairymen concerning the presence of silo gas within the silo. "If for any reason you may think there is a possibility of gas, never go into the silo until you may be able to circulate or air out the silo before entering," the associate agent said.

# Exposition Will Feature Over 3,600 Animals

HARRISBURG – A preliminary count of entries in the eleventh annual Pennsylvania Livestock Exposition indicates that more than 3,600 head of beef cattle, hogs, sheep and horses will be in competition for top honors. The exposition is scheduled for Nov. 4-11 in the Farm Show Building, Harrisburg.

Harold R. McCulloch, show manager, said that entries will be coming from "Maine to Texas," but that it will require several more days of processing and sorting of applications to give an accurate count of entries by breeds and states.

The Exposition is sponsored by the Pennsylvania Department of Agriculture, its Farm Show Commission, and the Pennsylvania Livestock and Allied Industries Association.

State Secretary of Agriculture Leland H. Bull said he is very pleased by the number of entries and that it is indicative of the widespread recognition of the exposition. He said that the exposition, in its first ten years, played an important part in the progress of the livestock industry and in improving the quality of all species of meat producing animals. In its second decade, he said, the exposition will begin to reflect a growing emphasis on the ultimate goal of the livestock industry, to satisfy the demands of the modern consumer by furnishing the most desirable meat.

## Adult Farm Course To Begin At EHS Thursday Evening

Adult Farmer classes will begin next Thursday at 7:30 p.m. in the vocational agriculture room at Ephrata Area High School, it has been announced by Lewis C. Ayers, advisor.

The free program will feature a seven-session dairy cattle housing course, with speakers representing the Pennsylvania State University and a number of agricultural products firms.

Topics will include:

Nov. 2 – Different types of systems and how to build a complete system, presented by Agway, Inc.; Nov. 9 – Designing the housing area, Roger Grout, PSU agricultural extension; Nov. 16 – Designing the milking area and selection of equipment, Babson Bros.

Nov. 30 – Materials' handling systems, Larry Click, PSU; Dec. 7 – Designing the feedlot, Butler Manufacturing Co.; Dec. 14 – Liquid manure systems, Clay Equipment Corp., and selection of feeding equipment, Badger Northland, Inc., and Vandale, Inc.

Dec. 21 – Fieldtrip to area dairy farms that have been remodeled or built new. This will be a daytime meeting, with further information to be announced.

**OUR COMPETITION TELLS US THAT WE'RE HARD-NOSED ABOUT FERTILIZER**

Long ago, in 1904, we decided to manufacture only the best possible fertilizer. We discovered that most of our customers couldn't afford to take chances with "Bargain-price" fertilizer. They want Premium fertilizer that takes high production punishment. The best advertisement we, of **FARMERS' FERTILIZER WORKS** have, is the many satisfied customers.

True, **FARMERS' FERTILIZERS** may cost a little more to buy, but our many customers find that whatever extra they pay is well worth the higher yields they produce season after season. Remember —

## ● Esbenshade

(Continued from Page 1)

Handbook was conducted in the main auditorium during the afternoon. Here a representative from each chapter in the York-Lancaster area competed in an answer-down contest.

John Kurtz from the Elizabethtown High School Chapter won this event.

Other chapter winners of Sears $25 bonds were: Clayton G. Risser, Elizabethtown R3; Kenneth M. Weber, Mohnton R2; Russell C. Admire Jr., Manheim R2; J. Ronald Stauffer, Ephrata R1; Glenn L. Bitner, Millersville R1; Lewis A Kreider, Quarryville R1 and Barry R. Nickle Paradise.

## Daylight Time To End

**Before going to bed tonight, be sure to turn your watch back an hour, unless you get up at 2 a.m., the official moment when, once again, we all return to Standard time.**

# Efficient Meat Production Is Changing Livestock Feeding

Demand for more efficient production of red meat is causing marked changes in feeding patterns in the livestock industry, an animal nutrition researcher at The Pennsylvania State University said recently during a Veterinary Nutrition Forum in Hershey.

Dr. B. R. Baumgardt, professor of animal nutrition, indicated the trend is toward rations low in roughage and high in concentrated feeds such as grains.

"Livestock farmers should consider carefully the need for roughages in feeds Some bulk or roughage is required in rations for ruminant or cud-chewing animals such as cattle and sheep. Such bulk provides the stretch and scratch stimuli needed by livestock to maintain normal motility and acid-base balance in the digestive tract," he stated.

Bulky roughages also provide a physical framework for microbial fermentation in the ruminant stomach, he added.

In areas where animal numbers are concentrated on high-value land near large cities, normal roughages are often difficult and expensive to obtain. In such cases, roughage substitutes are sought. Ground corn cobs and cottonseed hulls have been used successfully, but they are getting scarce. Currently, oyster shells, vermiculite, and rice hulls are being used with some success, he indicated.

Sawdust, shavings, and flooring waste are available in large quantities in many parts of the country Research is underway at Penn State to evaluate their usefulness as roughage substitutes.

AGWAY

# What makes this little pellet your big milk producer?

First, Agway's Nu-Milkerpels **16 is 100% pelleted. This** saves you time and labor, because the pellets flow freely in bulk bins and automated systems.

Full pelleting also allows Agway to use lower-cost (yet high milk-producing) ingredients than the ingredients which must be used in making a natural-textured feed. This lowers the cost per unit of energy or TDN in Nu-Milkerpels—which is reflected in its price to you.

Nu-Milkerpels contain urea as a protein source. Why? Urea makes high-quality protein quickly available in the cow's rumen. She makes more milk—and research indicates urea aids in the digestion of fiber in the ration.

Nu-Milkerpels use *lignin sulfate* as the pellet binder. This organic material, unlike the inert clay in many pellets, actually adds feeding value to the pellet—about $1.50 worth per ton.

Agway puts into this pellet everything that is known on the subject of how to make a dairy pellet profitable for you. Test this statement. Compare Nu-Milkerpels' 75 therms of milk-making energy, and its price, against the energy and price of your present dairy ration.

Then put these economic facts to work for you. Order Nu-Milkerpels 16. *Agway Inc.*

# For the Farm Wife and Family

By Mrs. Richard C. Spence, Food Editor

SPENCE

## *Suppers For A Busy Day*

It seems to be "rule of the thumb" these days to rush home from an afternoon meeting just in time to make supper. Which means that it ought to be something quick. How lucky we feel if we've had time to prepare something ahead of time, all ready to pop in the oven or heat on top of the stove.

This Frankfurter-Apple Bean Bake is a dish to fit this category. It's easy to prepare, easy to bake and easy to eat.

**FRANKFURTER–APPLE BEAN BAKE**

¼ cup molasses
3 tablespoons prepared mustard
2 tablespoons vinegar or lemon juice
2 teaspoons Worcestershire sauce
2 cans (1-lb. each) baked beans in tomato sauce
1 can (1-lb. 4-oz.) apple slices
1 pound frankfurters

Mix together molasses and mustard; stir in vinegar and Worcestershire sauce. Add to baked beans and apple slices; mix well. Spoon into 1 large casserole or 8 individual casseroles. Cut each frankfurter into thirds and arrange on top of casseroles. Bake in 425 degree oven 30 minutes. Makes 8 servings.

* * * *

**SAUSAGE SPOON BREAD**

1 cup corn meal
1 teaspoon salt
1 cup cold milk
1½ cups milk, scalded
2 tablespoons butter or margarine
½ pound pork sausage, cooked, crumbled and drained
4 egg yolks
4 egg whites, stiffly beaten

Combine corn meal, salt and cold milk. Add to scalded milk, stirring constantly. Cook until thickened, about 5 minutes, stirring frequently. Remove from heat. Stir in butter and sausage. Beat egg yolks until thick and lemon colored. Stir a small amount of corn meal mixture into egg yolks; add egg mixture to corn meal, mixing well. Fold in beaten egg whites. Pour into greased 1½ quart souffle dish or casserole. Bake uncovered in preheated moderate oven (350 degrees) about 50 minutes without opening oven door. Serve immediately Makes 6 servings.

* * * *

**SAUCY SAUSAGE**

½ teaspoon ground sage
½ teaspoon grated lemon rind
⅛ teaspoon ground black pepper
1 (8-oz.) pkg.) corn muffin mix
1 egg
⅓ cup milk
1 pound sausage meat, formed into 1-inch balls
¼ pound mushrooms, thinly sliced or 1 (4-oz.) can sliced mushrooms, drained
⅔ cup sliced celery
¼ cup chopped onion
2 (1-oz.) packages brown gravy mix
Water
1 (10-oz.) package frozen asparagus, cooked, drained
Parsley for garnish
Pimiento strips

Blend first three ingredients into corn muffin mix. Prepare according to package directions using 1 egg and ⅓ cup milk; pour into a well-greased 8-inch square baking dish and bake in a preheated moderate oven (375 degrees) 25 to 30 minutes or until golden brown. Meanwhile saute sausage until light brown. Drain off all except 3 tablespoons fat. Add mushrooms celery and onion; saute until golden. Combine gravy mix and water according to package directions, stir into meat mixture. Cook 1 minute. Remove corn bread from pan. Cut into 4 squares. To serve, top with meat and gravy and accompany with asparagus spears garnished with pimiento strips. Makes 4 servings.

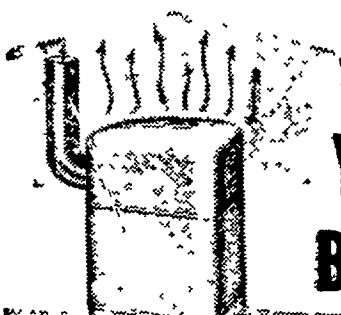
* * * *

**SPARERIB DINNER**

5 to 6 pounds (2 racks) spareribs, cut into serving pieces
Salt
½ cup catsup
¼ cup molasses
¼ cup prepared mustard
2 tablespoons vinegar
2 tablespoons Worcestershire sauce
2 cans (1-lb., 11-oz. each) sauerkraut
1 can (1-lb., 4-oz.) apple slices
1 teaspoon caraway seed
1 garlic clove
Spiced crab apples for garnish, optional

Place spareribs, meat side up, in shallow baking pan. Sprinkle with salt. Bake in 350 degree oven 30 minutes. Blend catsup, molasses and mustard; stir in vinegar and Worcestershire sauce. Brush spareribs with this sauce; turn and continue baking for 1 hour longer, basting frequently. Meanwhile, heat sauerkraut, apple slices, caraway seed, and garlic clove stuck on small wooden pick in saucepan. Let simmer during last half-hour of spareribs cooking time; remove garlic clove. Serve ribs on sauerkraut mixture If desired, garnish with spiced crab apples. 4 to 6 servings.

And just think — our country was partly founded to avoid taxation.



if your heat goes UP
YOUR FUEL BILLS GO UP!

SIEGLER OIL HOME HEATERS
force the heat down
and fuel bills go down

Ordinary heaters pile the heat up on the ceiling until some of it finally steps down to the living level. If you own an ordinary heater, you know how costly *and uncomfortable* that system is! Siegler does just the opposite... your floor gets heated first. Heat is not wasted on the ceiling and out the chimney. Don't close off rooms this winter and pay high fuel bills to boot... order your new Siegler now.

IT PAYS FOR ITSELF WITH THE FUEL IT SAVES

IF MONEY BURNS A HOLE IN YOUR POCKET, WE'LL ANSWER THE ALARM

Ronald L. Buch, Head Teller at our Lititz Springs Office, is the 2nd assistant fire chief of the Neffsville Community Fire Company. Any way you look at it, Ron's in the business of putting out fires. He's responsible for controlling the blazes that destroy property. And, like all of us at The Conestoga, he's interested in extinguishing those flames that may destroy your financial security . . . the ones created by money burning a hole in your pocket.

Cash that is too readily available is often spent carelessly. Such spur-of-the-moment buying may be fun, but it's also expensive. So protect your funds from the flames of indiscriminate spending with a personal savings account at your Headquarters for Money Matters. Unless, of course, you have money to burn.

# GRANGE NEWS

### GRANGE #66

Fulton Grange #66 held its regular meeting October 23 with Master Clifford W. Holloway Jr. presiding at the business session. He made the following committee appointments for this Grange year: Home Economics – Mrs. William Walton, Mrs. Melvin Shaub, Mrs. Owen Groff Sr, Mrs. Gyles Brown, Mrs. Harold Alexander and Mrs Charles Long. Legislative – Sherman L Hill and Norman Wood; Youth – Mr. and Mrs. Stanley Stauffer Jr, Mrs. Donald Hess, Misses Betty Sheetz and Linda Barnes, James Huber, Dennis Carroll and Mr. and Mrs Chester Todd Jr Membership – Clair Murphy, Mr. and Mrs. Richard Nye; Hospitality – Mrs. Thomas Galbreath. The Hobo Show has been postponed until after the beginning of 1968

Mrs. Jesse Wood, Lecturer, presented the program. A skit, "A Family Affair"; a talk on "Flags" given by Rev. Howard D. Huddleson together with a display of a very large collection of flags of the world; group singing, "Columbia the Gem of the Ocean"

Mr. and Mrs Gyles Brown are delegates of Fulton Grange this week to the Pennsylvania State Grange convention at Gettysburg. Clifford W. Holloway Jr. will be a delegate to the National Grange convention at Syracuse, N.Y. Nov. 13 to 22.

Boy Scout Troop 330 will give demonstrations on first aid and resuscitation at the next meeting November 13. November 27 will be Corn and Pie Night.

# Farm Women

### SOCIETY 21

Mrs. Morgan Foose, Quarryville R1, was elected vice president of the Society of Farm Women 21 at a recent covered dish social when members of Society 22 were guests. Mrs Thomas Bradley was elected treasurer.

Mrs Clair DeLong, president, and Mrs. Park Ressel, secretary, are starting their second year of a two-year term.

The group will sponsor a contestant in the Miss Solanco Pageant in November. They will also serve the guests at the Lancaster County Home in November with Society 22.

In other recent service projects, Society 21 made cupcakes for a Chicken Barbecue sponsored by the Solanco Fair Association and furnished sandwiches for the USO. They folded Christmas Seals at the TB Center on Monday.

Mrs Ray Strawser showed pictures of her stay in Germany and England. Holiday foods will be the program subject when the group meets on Nov. 9 at 7:30 p m at the home of Mrs Melvin Meck, 8 Cedar Drive, Willow Heights. Co-hostesses will be Mrs George Pickel and Mrs Frank Aument.

### SOCIETY 2

Society of Farm Women 2 met Saturday to make cancer pads. The day included a covered dish luncheon with Mrs Marlin Hosler, Manheim R4, as hostess and Mrs. Layser Shenk assisting.

Devotions were led by Mrs Morris Shaffer. Mrs. Earl Petticoffer presided over the business meeting.

Donations were given to the Lancaster Association for Retarded Children and the Needlework Guild.

Mrs Shenk was elected treasurer. Mrs. Fred Hahn is assistant treasurer.

The group will decorate a table at the Homemaker's Christ-

## Ladies, Have You Heard? . . .

**By Doris Thomas, Extension Home Economist**

THOMAS

**Keep Knives In Good Condition**

Knives stay in good condition through reasonable care, rather than frequent sharpening This means:

Cutting on a board.

Protecting a knife in storage, not storing it with other tools.

Never use it to pry off lids, open packages, or sharpen pencils.

Use an old, inexpensive knife for rough jobs.

Never use a knife to open cans — it's unsafe

Heat is harmful to knife blades Too hot water can spoil steel, and the handle of a knife is more delicate than the blade.

Keep knives clean and sanitary and dry thoroughly before storing.

Use a cleaver to cut bones — not a butcher knife Bones can dull sharp knives.

**Some Convenience Foods Cost Less**

There are some convenience foods that cost less than foods you prepare from "scratch" at home. They include instant coffee, canned or frozen orange juice, canned red sour cherries, canned or frozen lima beans, canned or frozen corn, canned or frozen peas, canned spaghetti, and devils food cake mix.

**Curtains for Less?**

Check the dress goods counters for possibilities when you choose fabrics for curtains

Dress fabrics are colorful and exciting in design and texture.

They are usually available in varied widths and fibers

Cost per yard is less than what you usually find in drapery fabrics

Read the label before you make your decision Label

## Help Little Goblins Have Safe Trick-Or-Treating Season

It's witching season: three-foot high witches, goblins and ghosts will soon be knocking on doors Halloween is exciting fun, don't let it turn into a disaster for your child, says Mrs Mary Keller, extension home economics agent for New Castle county.

A costume's mask is half the fun, yet a mask can be dangerous if it blocks your child's vision Make-up can be just as imaginative as any mask — and far safer With Mother's lipstick and eye make-up, your goblin, ghost or pirate will look as ferocious as he could possibly want Put a thin layer of cold cream under the make-up and use it again to remove the mask, it's easier than scrubbing

Costumes themselves can be hazardous warns Mrs Keller Most are not fireproof and many are extremely flimsy Keep away from lighted candles and jack-o-lanterns And, don't allow your youngster to wear costumes that trail on the ground Children can trip and fall much too easily while dashing back and forth in the dark

Ghosts are safer than witches — since on dark roads motorists can see light-colored costumes much more clearly For traffic safety, be sure your children wear light costumes or add fluorescent tape to dark costumes when they go trick or-treating.

A jack-o-lantern grinning into the dark is a Halloween tradition don't let that grin turn into a fire Plastic or cardboard pumpkins should never be used with a real candle, use a small flashlight fastened so the hot bulb is well away from the pumpkin's side. If you use a real pumpkin, fasten the candle securely in an upright position. Of course, never leave a lighted jack-o-lantern unattended; children should never carry one as part of their costume while they're roaming the neighborhood.

Perhaps the greatest Halloween hazard is internal If your trick-or-treater eats a six month's supply of candy in one night, he'll probably be miserable for a week. Put some aside and dole it out over a few week's time. Mrs. Keller advised. Wrapped candy keeps best, she says.

Never give suckers with hard sticks to the goblins knocking on your door. Why not give fruit, cookies, popcorn balls or small packages of raisins this Halloween? Parents, at least, will welcome these more nutritious treats.

## ● Poultrymen

(Continued from Page 1)

a form of ethics in the Bible that still holds "And when these people are united again in land and language, they will again fulfill the prophecy of being 'a light to the nations'."

**DIRECTORS ELECTED**

In election of officers these men were elected or re-elected: John Huber Jr., Lititz; J. Harold Esbenshade, Manheim; Allen B. Graybill, Lancaster and Harold Burkhart, Strasburg.

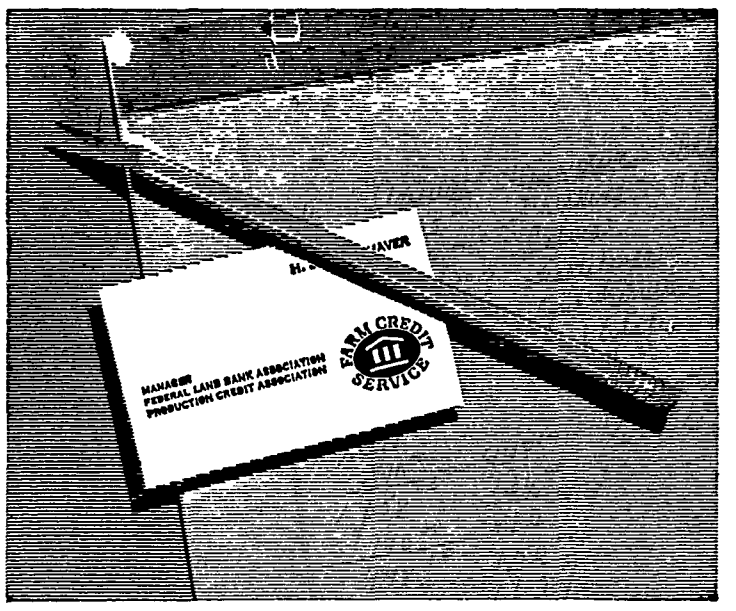
## ● Tobacco Buyers

(Continued from Page 1)

ing has since opened more fully and the through price has gone up to 27 cents.

A farmer in the eastern part of the county who asked not to be quoted said he hoped the farmers would hang on to it a little. He, too, felt the crop was worth more but believed the buyers bought according to the number of acres planted and not by the quality of the crop.

The latest report, as of press time, was that a large majority of the buyers were in the field but they were finding resistance to their offers.



**Two important things when borrowing money**

You need a sharp pencil plus the specialized financial advice of Farm Credit to determine how your financial needs can best be served. Farm production must be maintained, even increased if possible. Providing the financing to insure this is Farm Credit's job. Farm Credit loans are available now for any sound farm need. And, at realistic rates. Farm Credit interest is based on the unpaid balance of the loan. That saves you money.

# Pulp Wood Co. Offers Trees To Landowners

Farmers of Lancaster County are being reminded that right now is the time to plan for tree planting to be done in the spring of 1968. As in past years, The Glatfelter Pulp Wood Company of Spring Grove, Pa., will again furnish free tree seedlings to any interested and qualified landowner. Since the inception in 1951 of the Company program, nearly 10 million seedlings have been furnished to landowners in 13 southcentral Pennsylvania counties.

Tree species available this year under the program are white pine, Austrian pine, Banks pine, pitch pine, Norway spruce, white spruce, Japanese larch, European larch and Virginia pine. Orders are filled on a first-come basis so it is important to get your order in early to assure receiving the species you want. All trees are purchased by the Glatfelter Company from the Pennsylvania Department of Forests and Waters. The Company imposes no restrictions of any kind, but the landowner planting the seedlings must comply with normal state regulations regarding these trees That is they may not be used for Christmas trees, decorative purposes, or for windbreaks. Minimum order acceptable is for 1,000 seedlings. All trees are the property of the landowner and he may cut them at a future date for any wood products he desires.

If you are a landowner who is planning to plant trees in 1968 and wish to receive free tree seedlings, act now! To obtain information about placing your order see your local County Agent, your Forests and Waters Department District Office or write directly to The Glatfelter Pulp Wood Company, Spring Grove, Pa All necessary information and order blanks will be mailed to you

# Lititz-Manheim 4-H Club Wins Capon Awards

Two members of the Lititz-Manheim 4-H Club won the top awards in the annual Dressed Capon Exhibit held Tuesday morning at the Elks Club in Lancaster.

Michael Peifer, 12-year-old son of Mr and Mrs Mervin Peifer, Manheim R1, had the grand champion birds Last year he had the reserve entries.

Showing the reserve grand champion capons this year was Robert Miller, Lititz R3 Robert is the 16-year-old son of Mr and Mrs Charles N. Miller.

Linda Porter, of the Penn-Manor Club, had the best record book based on management and record keeping Linda is the daughter of Mr and Mrs Edgar Porter, Washington Boro R1

## Keep Water Hoses Out Of Pesticide Water

When filling a spray tank or when rinsing and washing pesticide equipment or containers, never permit the hose or faucet to extend into the pesticide or the rinse water

"Contaminated water should never reach the mouth of the water supply outlet." warns David Shriver, pesticide-chemicals leader at the University of Maryland

Shriver advises leaving a large air-gap between the water source and the contaminated water since surface contamination of the hose could be dangerous to someone drinking from the hose or faucet

## WHY? YOU ASK?

WHY SHOULD YOU LIST YOUR COUNTRY PLACE, FARM, LAND OR LOTS WITH WENTZEL?
Because Wentzels have many waiting city buyers who many times pay higher prices than your local buyers; because everybody knows Wentzel advertises regularly; Wentzels help arrange financing; Wentzel has a whole barn-full of ex-farmer boys (now skilled negotiators) to help sell your present place more quickly and efficiently and to help you buy or build your next home. Phone 394-3763 today.

# Deadline To Get Soil And Water Tickets Set

Farmers, district directors, conservation agency representatives and conservation leaders, will convene in Lancaster November 8-10, at the 20th Annual Conference of the State Soil and Water Conservation meeting scheduled for the Host Town Motel The theme of conference is "This Land Is Your Land."

**Local farmers were reminded this week that tickets for this important meeting may be secured by calling Mrs. Nancy Burkhart at 394-0681, extension 61, no later than November 1.**

The conference will open with committee meetings and auto tours for early arrivals Wednesday afternoon, November 8, followed by an evening program sponsored by the host district of Lancaster County

Thursday's agenda includes a breakfast meeting sponsored by the New Holland Division of Sperry Rand Corporation, with Miss Rebekah Sheaffer, a former Lancaster County school teacher as guest speaker; a panel discussion and presentation of awards a tour in the afternoon, and the annual banquet in the evening at which Lieut Governor Raymond J Broderick will be the speaker

The conference closes with a district directors workshop and the annual business meeting of the state association on Friday morning.

**HUNTING LICENSE IS PERMIT**

A few acts of vandalism is all it takes to encourage landowners to post against hunting Game is a public resource and belongs to everyone, but land ownership is private Robert G Wingard, extension wildlife specialist at Penn State University, says a hunting license is merely a permit to take game under certain regulations It does not grant to hunters the right to trespass on or abuse private property

If your home or business has a fire extinguisher it should be checked regularly, say extension safety specialists at Penn State University This is the only way you can be sure it will be in good condition when you need it Be sure each member of the family or business knows where the equipment is located and how to use it effectively It's a good idea to have an extinguisher on each floor for maximum protection

## Curtiss Schedules Farmer-Breeder Meeting Nov. 2

The featured speaker for the Curtiss Farmer-Breeder meeting scheduled for Nov. 2 at 8 p m. at Lafayette Fire Hall will be Morris B. Ewing, director of Statistical Analysis for Curtiss. His presentation is titled, "The Curtiss Bulls".

Thomas W. Kelly, district manager, will speak on "The Truly Profitable Cow".

All interested persons are invited. There will be door prizes and refreshments.

# Animal Health Meet Presented By Manheim Y.F.

Dairymen and livestock raisers are invited to attend an animal health management meeting sponsored by the Manheim Young Farmers Association. According to Jess R. Erway, Vo-ag Teacher, Dr. Max Lowe, Consultant and vice president of Anchor Serum Company, from St. Joseph, Mo., will present color slides and discuss problems, treatment and prevention of the health problems incurred on your farm.

The meeting will be held in the AV room (eastern entrance) of the Manheim Central High School at 1:30 p.m

## Shropshire Men To Hold National Meet At Pa. Exposition

HARRISBURG – The American Shropshire Registry Association will hold its annual meeting during the Pennsylvania Livestock Exposition, Nov. 4 11, at the Farm Show Building, Harrisburg.

Harold R. McCulloch, show manager, said he has been notified by the registry office at Lafayette, Ind., that the sheep association will meet Tuesday and Wednesday, Nov. 7 and 8, at the exposition, and will hold a banquet Wednesday evening at the Penn-Harris Hotel, Harrisburg.

Association members coming to Harrisburg will have an opportunity to watch the judging in the Shropshire open classes on Wednesday of show week. McCulloch said approximately 100 head of the breed will be in competition. He added that the sale of market wethers on Thursday will be of interest for the purchasing of stock at auction.

State Secretary of Agriculture Leland H. Bull said he was most gratified that the association will be here for its business meeting and expressed the hope that it would encourage the breeders to select the exposition as the site for a future national show.

More than 3,600 animals have been entered in the exposition which is sponsored by the Pa. Department of Agriculture, its Farm Show Commission, and the Pennsylvania Livestock and Allied Industries Association.
